

## How Should Recyclable Materials Be Set Out?

Trash Hauler will pick-up an unlimited amount of recyclables from each home. They will provide the initial recycling bin to homeowners at no cost. Alternatively, homeowners can use their own containers, including trash barrels. These containers need to be well marked with "RECYCLING" or the universal recycling symbol.

- Recyclables can be commingled loosely in the recycling bin
- **Corrugated cartons should be cut or reduced to 2' X 2' and placed under the recycling bin**
- All containers should be thoroughly rinsed
- Labels are okay
